

Join the Virtual 2024 World Sustainable Built Environment (WSBE24) Conference!

Connect from anywhere in the world on June 12-14, 2024, for the conference, and gain continued access post-conference to:

- Presentations: Keynote talks, roundtable sessions, special topics, and scientific sessions
- Peer-Reviewed Proceedings: 118 papers showcasing the latest research from around the globe
- Session Summaries and Virtual Booth Materials

Early bird registration ends on May 31, 2024. Take advantage of significant discounts for students and participants from emerging economies. Register now at <https://www.wsbe24.org>

WSBE24 is the culmination of a series of nine regional conferences held in ten cities across various countries, from March 2021 to November 2023. The SBE Conference Series (<https://sbe-series.org>) is renowned for bringing together top expertise, cutting-edge knowledge, and research evidence to support sustainable development and management of the built environment at all scales. It collaborates with stakeholders across the built environment value chain globally.

The SBE Conference Series Partners & Permanent Co-hosts are:

[CIB, International Council for Research and Innovation in Building and Construction](#)
[International Initiative for a Sustainable Built Environment \(iiSBE\)](#)
[FIDIC - International Federation of Consulting Engineers](#)
[UN Environment Programme](#)

Visit our website for other information about the WSBE24 conference program. Stay updated as we roll out specific features and announce speakers throughout the week.

We look forward to your participation and contributions to a more sustainable built and urban environment future!
